Re Savannah letter 1/9/73.

[redacted] recontacted the Savannah Office on 1/10/73 to advise that while being interviewed on 1/8/73 he had the wrong organization in mind when referring to the American Association for the Advancement of Science (AAAS). He said AAAS is a reputable organization and he is still a member of this organization. The organization he had in mind was the ~~American Association of University Professors~~ when he identified the organization as a "liberal" organization in that it acts more as a labor organization than a professional organization.
