NOV 17 1972

(16)

CG 100-51732

At that time, the individuals mentioned were checked through the Chicago indices, and pertinent information was set forth where available.

As the Bureau is aware, previous activities of the captioned group in the Chicago area were centered at the University of Chicago, and several of the above individuals were identified as students, teaching assistants, and fellows in the departments of biology, chemistry, and anatomy at the University of Chicago.

By referenced letter on August 21, 1972, the captioned organization was placed in an RUC status to Boston, as it was not then active in the Chicago area. No additional information has been received indicating it to be currently active.

Inasmuch as the above named individuals were not members of a basic revolutionary organization, and there was no information indicating involvement in activity other than anti-war activity, and none were known to advocate violence as a means of obtaining their objectives, no active investigation was conducted under the individual case captions as it did not appear to be warranted.

It is noted that [redacted] had been an ADEX III subject of the Chicago Office. There is no indication that he or the others met current ADEX criteria as set forth in SAC memorandum 21-72 dated September 12, 1972.

b6  
b7c

In view of the above, Chicago is taking no further action with regard to individuals mentioned in reLHM of 6/13/72.
